Retention and Graduation

Retention and Graduation Rates by Cohort	Trends of retention rates. Trend of four-, five- and six-year graduation rates.
Retention Rates for Demographic Groups	Trends of retention rates for first-generation students, students of color and low-income students.
Degrees Awarded	Trend of total degrees awarded during each fiscal year. Degrees awarded at spring, summer and winter commencements are counted.
Majors At Graduation	Trend of the majors of those who graduated in each fiscal year. Because this number includes second majors, it exceeds the number of degrees conferred.
Definitions	**Post Baccalaureates** are students with a bachelor's degree returning for teaching certification - counted as undergraduates. **First-Generation Students** - Students report parental education on their admission application. First-generation students are those for whom neither parent possesses a four-year college degree. **Low-Income Students** – Pell-grant recipients are used as a proxy for low-income status. Some students who receive Federal Pell grants may not actually be from low-income families (for example, if there are many students from that family enrolled in college at once).

Note: Retention and graduation rates are calculated based on all full-time, first-time, bachelor degree seeking students entering in fall of a given year. For Factbooks published prior to fall 2006 these rates were calculated using all first-time, first-year undergraduate degree seeking students regardless of full- or part-time status. Historical data presented here have been recalculated based on full-time students only so that figures in these tables are consistently derived.

Retention and graduation rates are calculated based on all full-time, first-time, bachelor degree seeking students entering in fall of a given year.

IPEDS rules have been applied to these calculations. These rules require that students who are deceased or who are away for activities such as military deployment or church missions be removed from the analysis.

Pell-grant recipients are used as a proxy for low-income status. Some students who receive Federal Pell grants may not actually be from low-income families (for example, if there are many students enrolled in college at once).

Definitions	**Facilities Operating Budget Total ($/GSF)** – The Facilities Operating Budget Total benchmark analyzes the amount budgeted each year to operate campus physical assets and the department that maintains them. The budget is broken into three different categories: **Daily Service:** Materials, labor costs, service contracts, office expense, etc. associated with the regular maintenance, cleaning and grounds keeping of the campus. **Planned Maintenance:** Materials, labor costs, service contracts, etc. that enhance or extend the useful life of campus buildings and components. Some examples include changing belts and filters on HVAC equipment, elevator service contracts, sprinkler and fire alarm system testing/maintenance contracts, etc. **Utilities:** The procurement of utility commodities, i.e. natural gas, oil, steam, electricity, water/sewer, etc. Utilities costs do not include institutionally held people costs, plant operations or service contracts of utility systems. **The Facilities Condition Index (FCI)** is a comparative indicator of the relative condition of facilities. The FCI is expressed as a ratio of the cost of remedying maintenance deficiencies to the current replacement value.

Finance & Facilities

Definitions continued

Density Factor (# of users/100,000 GSF) measures the number of faculty, staff and student FTEs on campus per hundred thousand square feet. This determines the intensity of use that campus space experiences on a daily basis, or the number of people utilizing the space on a regular basis. The higher the density factor, the quicker space becomes worn out, dirty, etc. and the harder it is for facilities to maintain. Typical density factor categories that institutions fall into:

0 – 250: Small, liberal arts institutions
250 – 400: Comprehensive institutions
400 – 600: Large, graduate, research institutions
600+: Urban institutions, hospitals

Other benchmarks significantly impacted by density factor include custodial staffing, supervision, material expenditures, and cleanliness scores.

Mandatory Fees are charged to students enrolled for credit. These fees include a Registration Fee, Student Center Fee, Activity Fee, Educational And Technical Fee, Athletics and Recreational Sports fee, Health and Counseling Services Fee and Class Dues. *For further information regarding mandatory fees please see the Mandatory Fees page of the KSC website (http://www.keene.edu/sfs/mandatory-fees.cfm).*

Per-Credit costs are charged to those students enrolled part-time.

FFTE is Financial full-time equivelant students. This is total annual tuition and fee revenues divided by the annual tuition rate based on each KSC tuition rate category.
